Nova Aqua is an advanced biorevitalization product featuring high molecular weight non-cross-linked hyaluronic acid (HA).

Nova Aqua injections deliver rapid and noticeable improvements in skin rejuvenation and hydration.

Due to its exceptional biochemical properties, Nova Aqua ensures outstanding skin regeneration, intense moisturization, and improved skin elasticity and firmness.

Nova Aqua is also beneficial for joint health. By enhancing the viscosity and thickness of the synovial fluid, Nova Aqua joint injections provide superior protection for cartilage tissues.

Nova Aqua effectively alleviates inflammation and accelerates cartilage repair processes.
