## Introduction to Nova Eyes What is Nova Eyes?

Nova Eyes is an innovative tissue stimulator specifically designed for needle mesotherapy treatments around the eyes and tear valley.

Utilizing polynucleotides (PN), this high-quality injectable product rejuvenates, hydrates, and combats signs of fatigue without the risk of side effects like lymphoedema.

Experience the filling effect that revitalizes your skin, restoring its natural beauty.

# Key Ingredients

## Polynucleotides (PN):

A powerful complex that promotes tissue regeneration, moisturizes, and restores volume.

## Mechanism of Action:

Polynucleotides stimulate the active synthesis of collagen and elastin, helping to restore DNA chains and repair damaged tissues from the inside out. This results in improved skin firmness and density, enhancing overall quality.

Polynucleotide  
2MG

Deoxyribonucleic  
Acid  
250-350 KDA

# Treatment Benefits

- ✓ Complex whitening and skin rejuvenation
- ✓ Restoration of damaged skin
- ✓ Formation of a healthy skin barrier
- ✓ Active regeneration of cells and tissues in the dermis
